

AUTO WRECK PROVES FATAL

For Jesse L. Montgomery, General Manager of The Daniel Boone Coal Co.

ACCIDENT HAPPENED

NEAR VICTORIA

While Mr. Jesse L. Montgomery, accompanied by his bookkeeper Mr. Williams and two friends were returning to Daniel Boone from Madisonville in Mr. Montgomery's auto Friday afternoon, the spindle on the front left hand side broke near Victoria mines, running the car into an embankment and throwing the entire party, with the exception of Mr. Montgomery, from the car. Mr. Montgomery was thrown against the steering wheel breaking it to pieces and rendering him unconscious for a short time.

It was thought at the time Mr. Montgomery's injuries were not serious, he was brought to this place and sent to Daniel Boone. By Saturday morning it was discovered he was injured internally and his condition grew rapidly worse until the time of his death, which took place in a short time. His family was in Princeton, Ky., and were notified of his serious condition. A special train brought them to Daniel Boone reaching that place shortly before his death. The remains were shipped to his home in Pennsylvania Monday for burial.

New Officers for Madisonville

Madisonville, Ky., Dec. 8.—The first meeting of the newly elected city council was held this afternoon and the following city officials were appointed by the council: Clerk, Jesse Weldon; treasurer, F. O. Baker; City attorney, J. W. Powell; assessor, J. W. Townsend; City tax collector, C. S. Williams; chief of police, W. S. Wilson; patrolmen, John Ashby and Johnson Williams; Lock-up keeper, Odie Saffou. Failure of the Democratic members of the council to "get together" prevented a caucus being held and this afternoon the two Republican members of the body helped name the officials. There were many applicants for the places and a big crowd attended the first meeting of the city date.

Successful Meeting Closes

The Revival at the M. E. Church on Methodist Hill closed last Thursday night with 33 conversion, and 17 additions to the church, and more to follow. Eight were immersed Sunday afternoon at the usual place of immersing. These received the baptism in church Sunday morning. The revival continued 4 weeks and 4 days, it was one of the best that has been in Earlington. The town "sat up and took notice" of the revival, the truth of a conversion, and of sin was pressed upon the congregation and many gave way to sin and sought peace in our Saviour's love. The Holy Spirit conviction came on many for days and nights some spared the spirit and the meeting closed and they were not saved. The church was wonderfully revived, higher ethical standards were lifted up, and the moral atmosphere was changed to one on higher grounds. The members of the church with their pastor Rev. J. L. Burton, wish to extend their thanks to the other churches who rendered us their service so faithfully and God will reward them, and thanks to the faithful choir who was always ready with their voices to sing God's praises. The church and pastor are very proud of their young choir leader who is always on hand with a smiling face and ready service. The revival was conducted by the Pastor J. L. Burton who came to us from Leitchfield.

Auction Whist Club

The Ladies' of the Card Club were entertained by Mrs. G. O. Atkinson on last Friday afternoon. Mesdames King, Alford and Rogers were guests of the Club. Mrs. Southworth made the highest score. Mesdames Rose, Kline, Rule and Johnson lead in the total score. Mrs. W. E. Davis expects to entertain the Club in Evansville in the near future.

Bear This in Mind

"I consider Chamberlain's Cough Remedy by far the best medicine in the market for colds and coughs," says Mrs. Albert Blaser, Lima, Ohio. Many others are of the same opinion. Obtainable everywhere.

Nuns Hide in Trenches--Convent Under Fire

London, Dec. 4.—All the nuns and girl pupils in a convent school in a Belgian town near the firing line find daily refuge in the British trenches when the town is under bombardment. Special communication trenches have been dug, and the moment the shells get to flying too thick the sisters herd their little charges out among the Tommies in the trenches.

MAKING PROGRESS

THESE happy, healthy looking children were sent to this open air school in Louisville a little time ago because they were run down and anaemic. Warmly clothed and provided with special diet, they do their school tasks in a room with the windows wide open, so that the wind can blow over them. Without exception these children make rapid progress in school and improve in health almost beyond belief.

Shacks For Consumptives at Western Kentucky Asylum For the Insane

At the state asylum for the insane at Hopkinsville it was found some years ago that many of the patients were afflicted with consumption. The authorities consequently built two groups of buildings to accommodate the consumptive cases.

A central building, to provide a dining room, bathrooms, etc., was surrounded by groups of shacks, each having beds for three patients. The lower fourth of each side of the shacks was boarded up, and the section above was formed of canvas stretched over frames. These canvas screens were made in sections fastened at the top with hinges, so that any side might be opened to admit the fresh air and sunlight.

Dr. H. P. Sights, superintendent of the hospital, states that the death rate at the asylum has been decreased 40 per cent by the use of these buildings for the consumptives, and that many of the consumptives have been returned to the main building restored and some have been sent home restored both physically and mentally.

The two groups of buildings, accommodating fifty-six patients, were built for less than \$8,000. Dr. Sights says further: "I think every county in the state should have a tuberculosis colony, and the county officials, who will take the time to look into the benefit offered their citizens, would not hesitate to take steps at once to establish such a colony, and do the greatest service possible for them to do with the amount invested. It will not be an experiment, as this state institution, with its limited funds, demonstrated fully the wisdom and economy of the project."

WILSON'S NAME FOR NEBRASKA BALLOT

But Bryan's Brother Refuses to Sign Name to President's Petition

Lincoln, Neb. Dec. 8.—The name of President Woodrow Wilson as a candidate for the Democratic Presidential Nomination is on file here today with the Secretary of State ready to be placed on the Nebraska primary ballot in 1916.

Olas Bryan, Mayor of Lincoln and brother of W. J. Bryan, former Secretary of State, refused to sign the Wilson petition when invited to do so. He said that he did not want to embarrass the President, but if the petitioners would wait until he communicated with Mr. Wilson, he might sign.

SCARCITY OF QUAIL

In 1911, during the season immedi-
ately preceding the creation of the
game laws, the Federal Government
discovered that large quantities of
quail were being sold in the northern
and eastern markets, and that these
birds had been shipped in violation of
the federal laws covering interstate
shipments of game.

The commission firms distributing
these birds were all prosecuted, and
by tracing the shipments to the firms,
the Government officials discovered
that great quantities of the quail had
come from Kentucky; in fact, 150,000
were shipped out of Kentucky in 1911,
13,700 being shipped from two points
in Gallatin county.

All of the parties making illegal
shipments were tried in the federal
courts of Kentucky and convictions
followed in every case. The United
States Government knew, in a general
way, that shipments were being made
from Kentucky, but in this work, as in
other branches of the Government,
they desired to help only those states
who were making an honest endeavor
to help themselves.

It was the common practice of the
larger hotels and restaurants in Ken-
tucky, before the creation of the Game
and Fish Commission, to annually sell
large quantities of quail illegally
bought and sold. A number of cases
were made against one of the leading
hotel companies in Kentucky, and we
are pleased to say that this illegal
practice has been stopped.

Cumberland River, one of Kentucky's
great game fish streams, and which
the Commission is restocking with
pike perch and bass.

PHEASANT DISTRIBUTION

In March, 1915, a distribution of Eng-
lish ringneck pheasants was made by
the Commission. These birds were
purchased in England and shipped to
Philadelphia, where they were received
by a representative of the Commission
and shipped in crates of fifteen birds,
ten hens and five cocks, to each coun-
ty in the state, where they were re-
ceived and separated into tricos, two
hens and a cock, and these birds were
liberated by persons with whom the
Commission had made arrangements,
on lands controlled by them.

Reports from 73 counties show an in-
crease of 2,656 birds, which indicates
a gratifying condition and places the
number of these splendid game birds
at liberty in Kentucky at something
above six thousand. Some of the birds
were held in captivity, but in nearly
every instance these experiments re-
sulted in failure, but the birds that
were turned loose and allowed to rear
their own young, in practically every
instance produced and raised a covey.

The result of these experiments
has so encouraged the Commission
that another importation of pheasants
is planned, and we hope to liberate
three thousand more of these birds in
the spring of 1916. The distribution of
pheasants aroused great interest, and
we received many requests for set-
tings of eggs and purchased 800 from
a game dealer in Pennsylvania, which
were sent by parcels post to those who
had applied. We also shipped 265 from
the Kentucky Game Preserve on Pine
Mountain, in East county.

The reports show that a large per-
centage of eggs did not hatch, and
where broods were hatched they soon
died, so the distribution proved a
failure.

It is unlawful to kill any ringneck
pheasant at any time of the year, and
the Commission appeals to you for
your assistance in protecting them un-
til they increase sufficiently to permit
hunting.

THE HUNTER AND THE MERCHANT

The hunter with an unloaded gun never bags
any game. And as it is with the hunter and his gun
so it is with the merchant and newspaper advertising

The merchant who goes to the people with an
advertisement loaded with gripping facts gets the
business. He appeals to them because he is pro-
gressive enough to tell them what they want to
know about the goods they want to buy.

Any person who is in the market for a certain
article is interested in knowing something about that
article before they part with their money. They
want to know store or stores have it before they go
out hunting for it. And they read the advertise-
ments in order to get that information

The people of this community are already
buying their holiday goods, and they will spend a
large amount of money before the 25th day of De-
cember is here.

Your advertisement in this paper will do the
work of the load in the hunters gun—IT WILL BAG
THE GAME. We are going to call on you and talk
it over. In the meantime we ask you to think it
over.

Thinking leads to talking; talking produces
advertising; advertising gets results.

Paxtine

A Soluble Antiseptic Powder to
be dissolved in water as needed
For Douches

In the local treatment of woman's ill-
ness such as leucorrhoea and inflammation, hot
douches of Paxtine are very efficacious.
No woman who has ever used medicated
douches will fail to appreciate the clean and
healthy condition Paxtine produces and the
prompt relief from soreness and discomfort
which follows its use. This is because Paxtine
possesses superior cleansing, disinfect-
ing and healing properties.
For ten years the Lydia E.
Pinkham Medicine Co. has recom-
mended Paxtine in their
private correspondence with wo-
men, which proves its superi-
ority. Women who have been
relieved say it is "worth its
weight in gold." At druggists.

Starting the Day Right

THE first exercise of the day at the
open air school for the treatment
of anemic children in Louisville
is a cold shower bath. The bath lasts
only a few seconds and is followed
by a quick, hard rub with a coarse
towel, so that the blood is brought
again to the surface. The cold bath
hardens any one so that an exposure
to the cold air and drafts is no longer dan-
gerous. In addition the quick, cold
bath sends each child to the school-
room happy and alert for the duties of
the day.

WOMEN OF KENTUCKY.

Newport, Ky.—"I have had a very
good experience with 'Favorite Pres-
cription.' I was dragged out and so
severely sick with female trouble that
I was down in bed and had to give up
all work. I did not get any strength
from anything. Then I read of what Dr. Pierce's
Favorite Prescription was doing for
others and my husband procured two bot-
tles of 'Prescription' at the drug store. I
got stronger at once and the use of two
bottles brought me up from my sick bed
and put me on my feet. I have had no
return of the trouble since. This was
some ten years ago."—Mrs. NANCY
HANDERS, 338 Central Ave

Thousands of women right here in Ken-
tucky who are now blessed with robust
health cannot understand why thousands
of other women continue to worry and
suffer from ailments peculiar to women
when they can obtain for a trifling sum
Dr. Pierce's Favorite Prescription, which
will surely and quickly banish all pain,
distress and misery and restore the
womanly functions to perfect health.

Young mothers who preserve the
charms of face and figure in spite of an
increasing family and the care of growing
children are always to be envied. Doctor
Pierce's Favorite Prescription gives the
strength and health upon which happy
motherhood depends. It practically does
away with the pains of maternity. It
enables the mother to nourish the infant
life depending on her, and enjoy the
hourly happiness of watching the develop-
ment of a perfectly healthy child.

Sick headache, biliousness, constiveness,
and all derangements of the liver, stomach
and bowels are relieved, prevented, by
Dr. Pierce's Pleasant Pellets.

Why You Should Use Chamberlain's Cough Remedy

Because it has an established rep-
utation won by its good works.

Because it is most esteemed by
those who have used it for many
years, as occasion required, and are

NOW HER FRIENDS HARDLY KNOW HER

But This Does Not Bother Mrs.
Burton, Under the
Circumstances.

Houston, Texas.—In an interesting
letter from this city, Mrs. S. C. Burton
writes as follows: "I think it is my duty
to tell you what your medicine, Cardui,
the woman's tonic, has done for me.

I was down sick with womanly trouble,
and my mother advised several different
treatments, but they didn't seem to do
me any good. I lingered along for three
or four months, and for three weeks, I
was in bed, so sick I couldn't bear for
any one to walk across the floor.

My husband advised me to try Cardui,
the woman's tonic. I have taken two
bottles of Cardui, am feeling fine, gained
15 pounds and do all of my housework.
Friends hardly know me, I am so well."

If you suffer from any of the ailments
so common to women, don't allow the
trouble to become chronic. Begin taking
Cardui to-day. It is purely vegetable,
its ingredients acting in a gentle, natural
way on the weakened womanly constitu-
tion. You run no risk in trying Cardui.
It has been helping weak women back to
health and strength for more than 50
years. It will help you. At all dealers.

KENTUCKY'S ROAD COMMISSIONER

Robert C. Terrell Has Success-
fully Put State Good Road
Laws Into Operation

HEAD OF STATE DEPARTMENT

Called From the Chair of Rural and
Highway Engineering of State Uni-
versity by Governor McCreary—
Great Work Accomplished During
the Past Three Years in Blue Grass
State.

Frankfort.—Kentucky's Road Com-
missioner, Robert C. Terrell, who has
successfully put into operation the
good roads laws of Kentucky and for
the past three years has been the head
of the road department, was born near
Bedford, Trimble county, Kentucky,
in 1884. After finishing the common
school of that county, he entered the
State University of Kentucky and
graduated from that institution in
1906, receiving the degree of bachelor
of engineering, and was given the mas-
ter's degree in civil engineering in
1908.

Immediately after receiving his de-
gree in 1906, he took charge of the
location of the Duck Fork extension
of the Louisville & Atlanta railway,
now a portion of the L. & N. system.
In addition to locating the road, Mr.
Terrell mapped and opened up a large
coal field for the Kentucky River Coal
& Coke Co., which was afterwards
leased by the Big Hill Coal Co. of
Pennsylvania. In June, 1907, after
completing the work with the Ken-
tucky River Coal & Coke Co., Mr.
Terrell was employed by the Ar-
kansas, Louisiana & Gulf Railway at
Hamburg, Arkansas, as assistant en-
gineer on twenty miles of construc-
tion, where he remained until its com-
pletion in the summer of 1908.

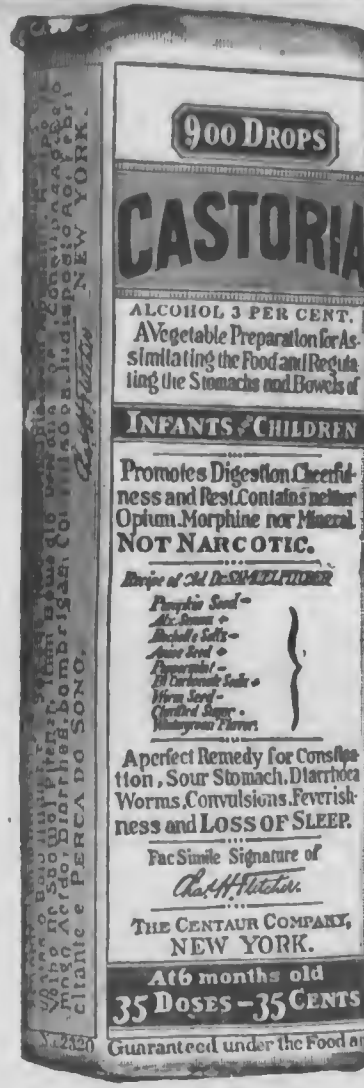

ROBERT C. TERRELL
Kentucky Road Commissioner.

Through Mr. Terrell's influence with
the Board of Trustees of the State
University of Kentucky, there was es-
tablished the chair of rural and high-
way engineering in the Department of
Civil Engineering of that institution.
He was unanimously chosen professor
of that chair. He immediately began
the campaign to secure not only the
undergraduate students in the course,
but also arranged to have the prac-
tical road builders of the state to take
short courses and attend lectures dur-
ing the winter season. The course
grew very popular, and many students
were enrolled in both the two and four-
year courses for undergraduate stu-
dents and large numbers of the county
road men, as well as the county judges
and magistrates matriculated for the
lecture courses.

In 1912, when the Department of
Public Roads was established by the
General Assembly, Governor McCreary
called Mr. Terrell from the chair of
rural and highway engineering of
State University of Kentucky and ap-
pointed him the first Commissioner of
Public Roads of Kentucky. Mr. Ter-
rell assumed his duties on July 1,
1912, and has untiringly given his
time and attention to the upbuilding
of the road system of the state.
Through his efforts and the showing
made by the department prior to the
meeting of the General Assembly of
1914 was made possible the passage
of the state aid road laws in Kentucky,
which provide for intercounty seat
system of highways and a five-cent
tax, together with the license tax on
automobiles to be spent for the con-
struction of the state system of high-
ways, the state paying one-half the
cost and the county one-half the cost
of such improvement.

Mr. Terrell, through his splendid
corps of assistants and thorough or-
ganization, has had active supervision
and charge of the preparation of the
plans, specifications and estimates of
cost and actual construction of more
than one thousand miles of road, and
has thoroughly demonstrated to the
citizens of the Commonwealth of Ken-
tucky the advantage of having roads
constructed on scientific principles,
and has made popular the new road
laws and has been successful in se-
curing the co-operation of the county
officials throughout the state.

Mr. Terrell, when interviewed on
the subject, stated he was well pleased
with the success of the new road laws,
and that a good showing had been
made this year, and that fully fifty
per cent more work would be accom-
plished during the year 1916, as the
county officers of nearly every county
in the state have already signified
their intention of taking their pro-
rata part of the state aid fund for
the coming year, and many more coun-
ties are preparing to vote bond issues.

WHAT CHANCE HAS KENTUCKY?

PEOPLE ARE ASKING QUESTIONS

Naturally no sane person cares "to jump out of the frying pan into the fire." Sane people always want to know, they are from Missouri and want to be shown.

Since the matter of taking the State Superintendent of Public Instruction out of politics and of allowing him to succeed himself, has been widely discussed in the papers of the State, the sane people are asking themselves and other people questions. Some of them are asking, "If the office is taken out of politics and he is to succeed himself, will he be appointed by a board or will he be elected, and how?" Others are asking, "But if he is allowed to succeed himself in office mightn't a shrewd fellow get in and stay in for ever and ever?" These questions are the ones which every sane taxpayer and voter in the State should ask himself.

Before answering these very pointed questions for the sane people of the State, it should be stated, and stated emphatically, that people everywhere are extremely anxious to get the schools and the whole school system out of politics. The point which bothers the smart and voter is: what is the best method so that definite results will be accomplished? If the legislature which convenes this winter should pass favorably on the amendment eliminating the name, "State Superintendent of Public Instruction," from the Constitution, it would still have to be voted upon by the people of the State at a regular election. After the amendment had been passed both by the legislature and the people, the manner of selecting or electing a superintendent would be taken up by the legislature of the State.

If the people acting through their representatives in the legislature, still wished to elect the State Superintendent, it could be done on an "off year" when no State officers were being

elected. In other words, it would not then be possible for him to be swept into office because he happened to be on the Republican or Democratic ticket. To make the necessity for an election at other than a regular State election clear, it need only be stated that nine out of every ten men who go to the polls, never know even the names of the men who are running for the office of State Superintendent. If anyone doubts the absolute accuracy of this statement, he should ask himself and nine other men the names of the two men for whom the people voted for State Superintendent last November.

A second plan for the securing of an efficient man for this most important position would be to have him appointed by a strong, non-partisan School Board. It must, however, be understood thoroughly that such a board would have to represent the mass of people of the whole State as well as the school men and women. In either of the above cases, it would always be to the distinct advantage of the State Superintendent to "make good" so that he might continue in office. Under the present system he must hold the office for four years then go back to teaching or he must use his position to secure for himself some other political office.

That the schools, and especially the rural schools, must be gotten out of politics goes without saying. The people and the legislators are sure to see this in a big, broad, patriotic way and carry the amendment. Afterwards the legislature can surely be trusted to learn what other states are doing with this most important office and then decide what is best for the school children of the State. The time is now ripe to act, because the people and the men who will represent them at Frankfort this winter, will be more than willing to do anything in their power to further the interest of the children who can not help themselves.

A Cornfield That the War Has Made Into a Town of 27 000

In the American Magazine for December an article by Mr. Crowell describing the effect of the powder industry on local life values says:

"The next report of the Department of Commerce will tell something of that miracle; yet it can give only a hint of the industrial magic that has studded the Eastern states with mighty manufacturing plants since the nations of Europe developed military hydrophobia only a little more than a year ago. Many of these plants are new; others are old ones grown greater.

"War waved his red wand above a hamlet at the junction of the James and Appomattox rivers—and a city sprang up overnight. Where forests of pine and dogwood looked down on rows of newly planted corn last spring, the largest powder plant in the world is standing today, and more than 25,000 men swear by it and at it. Already the buildings of the plant extend over 167 acres. At City Point there are 22,000 powder employees and perhaps 5,000 other men, drawn thither, for the most part, by the desire to divert a golden stream near its source; for the semi-monthly pay roll of the Du Pont powder works is more than three quarters of a million.

"Flanked on one side by City Point village, the original settlement, and on the other by Du Pont City, lies Hopewell, the most remarkable prodigy ever produced east of the Mississippi river. Here Harte would have gloried in Hopewell, for a mining camp in boom days must have been very like it; true, it lacks the mines, but a small land worth \$10 an acre a few months ago is selling for \$10,000 a double building lot today. Why should one delve into the bowels of the earth for further riches?"
